- Render

WORK EXPERIENCE

Global Digital Care - MERN Stack

Apr 2026 - Jun 2026

- Developed and deployed responsive web applications by integrating dynamic front-end interfaces with robust back-end architectures, enhancing functionality and user experience across platforms.
- Implemented API-driven solutions and modular components using modern frameworks, streamlining data flow and ensuring seamless interaction between client and server systems

Delta Code Solutions - Jr.Fronted developer

Sept 2025 - May 2026

- Gained hands-on experience in developing responsive web interfaces using React.js and
 - Next.js. Built reusable UI components to improve performance and user experience.
- Applied modern frontend techniques for routing, state management, and API integration..

PROJECTS

Elevate Bright Tech CRM

- Developed a full-stack CRM and workforce management platform using Next.js, Express.js, PostgreSQL, and Prisma. The system includes employee management, attendance tracking, timesheets, task management, and team communication. Also built a mobile application using React Native and a desktop tracking application for productivity monitoring.

GHM Guess How Much? (Map-Based Restaurant Platform)

- Developed a location-based food discovery platform where restaurants can create profiles, add meals and offers, while users discover nearby food options through an interactive map experience.

Digital Invoicing System

- Developed a digital invoicing system integrated with FBR (Federal Board of Revenue) for tax-compliant invoicing using React.js, Node.js, and PSQl, including client management, invoice generation, and PDF exports.

EDUCATION

The Islamia University of Bahawalpur

2021-2025

Bachelor of Software Engineering - 3.10 / 4.0 CGPA
